NEW UNDERGOUND MINING MACHINE SUPPLIERS

SAMSS
South African Mining and Smelting Solutions

YOUR COMPLETE SOLUTIONS PARTNER

We at **South African Mining and Smelting Solutions Pty Ltd (SAMSS)**, introduced into the African Mining markets our range of high quality trackless, underground mining vehicles. These vehicles, designed in conjunction by Hencon; Siberia and Hencon BV; The Netherlands, was first introduced into the Russian market.

The proven, robust design has been performing very well in the Russian Mining Industry, with an ever growing order book for the past few years. Almost double year on year. This introduction was very successful and thus opening the gateway to **SAMSS**, for the African Mining markets. After sales services will be supplied by our group's extensive and widely spread network.

With the first two test vehicles underway; testing will be done in South Africa in 2018 already!

HENCON
SERVING PROGRESS

Our vehicles will be available with an optional service contract, thus ensuring hassle free operations to our valued customer based. All vehicles will be equipped with an on-board monitoring system; allowing for real time, performance data availability. All vehicles will also be fitted with an on-board camera system. In comparison with our competitors, we offer exceptional availability, low running costs and complete hydrostatic drive. Advantages of the Hydrostatic Drive System:

- *Ensuring fuel efficiency*
- *Ensuring low operating costs*
- *Ensuring a smoother ride*
- *Ensuring easy running on inclined planes with up to 20º*
- *No gear shifting required*
- *No gearbox, drive shaft and torque converter used in vehicles*
