

SMART SOLUTIONS THAT DRIVE A VISION

From urban office spaces, mining, farming projects as well as community development projects the world has moved to intelligent building solutions. We have to be cost effective, efficient as well as environmentally friendly.

Smart Building Solutions or SBS for short is the world-leading provider of creative construction. SBS is a full service construction company specialising in traditional building, prefabricated building (PanelCast), container hiring and conversions (Containawise), walling materials and components (Walker Walling), Steel and Aluminium Window and Door frames. With intelligent community solutions, a pragmatic and innovative spirit as well as total contribution to social and environmental responsibility and sustainability. Our solutions bring the future to you, today.

The world is evolving. Evolve with it.

Four walls and a roof: those are the minimum requirements of a building. We need shelter to survive and we create buildings to meet that need. So why build more than absolutely necessary? Why not build affordable, nondescript, colorful buildings, or customised containers for your business?

The truth is that the buildings we work and live in shape who we are; whether we know it or not. They influence how happy and productive we are. A better building enables more efficient workers, more inclusive relationships, and a healthier well-being for each occupant.

We are a Smart Thinking, practically minded manufacturer and provider of residential, commercial, industrial, specialised and low cost building projects and services throughout Zimbabwe and the Southern African region.

We are the Smart Solution you are looking for.

Since 2003, we have been working with the best partners in the business to deliver the sturdiest outcomes. Meeting a client's expectations is good, but exceeding them is better and this is done through our solid reputation that comes from many years of satisfying client's needs that gives us clout in the construction world.

We love to build.

It is no secret that we love what we do. We are constantly inspired by the great work that our clients get up to. So, even though we come up with tailored low-cost building solutions across a wide spectrum, we also like to think we build spaces for creative expression, meet peoples dreams, provide shelter, enable security, create safe and private places, open doors for education, offer opportunities, provide sources of independence, accessibility and support.

You may be an architect, engineer, builder, developer, homeowner, supplier or sub-contractor, an NGO or community leader. Smart Building Solutions will work alongside you from the very beginning of any project, providing truly tailored solutions and the best results all round. We integrate honesty, integrity and business ethics into all aspects of our business.

Proudly Zimbabwean, Always Innovative, Resourceful and Easy to Work with.
